## Ride® Custom Back / U.S. Funding

---

### Medicare Code: E2617

Custom Fabricated Wheelchair Back Cushion, Any Size,  
Including Any Type Mounting Hardware

### Medicare Coverage Criteria

A custom fabricated back cushion (E2617) is covered if the two criteria below are met:

1. Beneficiary meets all of the criteria for a prefabricated positioning back cushion (see below):
  - The beneficiary has a manual wheelchair or a power wheelchair with a sling/solid seat/back and the beneficiary meets Medicare coverage criteria for it; AND
  - The beneficiary has any significant postural asymmetries that are due to one of the diagnoses listed in the ICD-10 Reference guide for the Custom Back. AND
2. There is a comprehensive written evaluation by a licensed/certified medical professional, such as a physical or occupational therapist, which clearly explains why a pre-fabricated seating system is not sufficient to meet the client's seating & positioning needs. The PT/OT may have no financial relationship to the supplier.

The only products, which may be billed using code E2617, are those products for which the Pricing, Data Analysis, and Coding (PDAC) contractor has made a written coding verification. A Product Classification List with products which have received a coding verification can be found on the PDAC website ([www.dmepdac.com](http://www.dmepdac.com)).

### Helpful Tips

- Be sure the clinical documentation clearly describes why off-the-shelf positioning backs do not meet the client's need. This may include specific body measurements, contractures, rotation, etc. Documented trial and failure of lower level equipment is beneficial.
- When billing, be sure to include the Manufacturer name and model name/number, and the MSRP.
- All accessories and customizations charged for a Ride Custom Back should be grouped with the back itself and billed as one line item coded E2617. Please contact Shelly Young at 303.513.5445 for assistance with funding, billing and reimbursement.

### Current Medicare Fee Schedule (as of October 2021)

There is no established Medicare Fee Schedule for this HCPCS Code. This item is individually priced.
