► Shape capture method

Using RideWorks® app?

Before scanning, on the clear, outer shape capture bag (using a black permanent marker), draw trim lines and marks to draw the back as it should be manufactured, including:

- Arrow pointing upward, indicating top of back
- Soft relief areas to protect bony prominences
- Depth and height of the lateral trunk supports

Using plaster instead of RideWorks app?

Before shipping cast, allow to DRY for 48 hours, and complete the following:

- Order form (enclose one copy in box with cast)

Mark cast with following information:

- Trim lines
- Arrow pointing upward indicating top of back
- Vertical line at approximate midline of wheelchair. Note: This may differ from client midline in the presence of severe postural asymmetry.
- Client first name and last initial
(name should exactly match name on order form face sheet)
- Date
- Supplier/Vendor
- Supplier/Vendor representative name
- Therapist name

NOTE: Do not ship cast in a plastic bag.

If plaster is sent to Ride Designs, a RideWorks scanning fee of \$290.00* will apply.

► Before transferring client from shape capture bag, please complete the following...

PHOTOS of client in shape capture bag: Front view Side view

- Included in RideWorks® client files
- Emailed to customerservice@ridedesigns.com, with client name and provider information
- Attached

Trim lines; establish and mark on clear, outer shape capture bag:

- Back height
- Lateral support depth and height
- Iliac crest height

Ride FlexLoc® Hardware

NOTE: Sections a, b, and c **MUST** have a selection.

a. Select Size and Quantity:

NOTE: Order the hardware size that matches the distance between mounting locations, not necessarily the wheelchair width. Mounting FlexLoc to Permobil® or Quantum® requires small FlexLoc mounting hardware with FlexLoc Adapter Plates from Ride Designs, Direct Backrest Frame from Permobil, or Aftermarket Back Interface from Quantum.

*WARNING! Two (2) sets of FlexLoc hardware are required if the client presents with any of the following:

- Weight exceeds 250 pounds
- Overall back height measurement (as measured to trim lines on cast) is greater than or equal to 28"
- Severe extensor tone, spasticity, etc.

Single Set of Hardware
