## Ride® Custom AccuSoft™ Cushion / U.S. Funding

---

### **Medicare Code: E2609**

Custom Fabricated Wheelchair Seat Cushion, Any Size

### **Cushion Cover - Replacement Only: E2619**

Replacement Cover for WC Seat Cushion  
or Back Cushion, Each

### **Medicare Coverage Criteria**

A custom fabricated seat cushion (E2609) is covered if the two criteria below are met:

1. The beneficiary has a manual wheelchair or a power wheelchair with a sling/solid seat/back and the beneficiary meets Medicare coverage criteria for it; AND
2. The beneficiary has either of the following:
  - Current pressure ulcer or past history of a pressure ulcer (See ICD-10 Reference Guide for the Ride Custom Seat) on the area of contact with the seating surface; OR
  - Absent or impaired sensation in the area of contact with the seating surface or inability to carry out a functional weight shift due to one of the diagnoses listed on the ICD-10 Reference Guide for the Ride Custom Seat Cushion 2. OR
  - The beneficiary has any significant postural asymmetries that are due to one of the diagnoses listed on the ICD-10 Reference Guide for the Ride Custom Seat Cushion 2. AND
3. There is a comprehensive written evaluation by a licensed/certified medical professional, such as a physical therapist (PT) or occupational therapist (OT), which clearly explains why a prefabricated seating system is not sufficient for meet the beneficiary's seating and positioning needs. The PT or OT may have no financial relationship with the supplier.

The only products, which may be billed using code E2609, are those products for which the Pricing, Data Analysis, and Coding (PDAC) contractor has made a written coding verification. A Product Classification List with products which have received a coding verification can be found on the PDAC website ([www.dmepdac.com](http://www.dmepdac.com)).

There is no specific coverage policy for the cushion cover (E2619); it can only be billed as a replacement.

### **Helpful Tips**

- Be sure the clinical documentation clearly describes why the off-the-shelf positioning seats do not meet the client's medical needs. This may include specific body measurements, contractures, rotation, etc. Documented trial and failure of lower level equipment is beneficial.
- When billing, be sure to include the Manufacturer name and model name/number, and the MSRP.
- All accessories and customizations charged with the Ride Custom AccuSoft Cushion should be grouped into the cushion itself and billed as one line item, coded E2609.
- The cushion cover (E2619) cannot be billed separately when the cushion itself is being billed. This is a replacement only billable code.
