
Meet us in Vancouver!

International Seating Symposium March 6-9

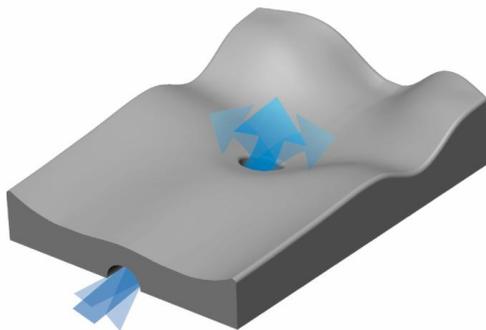

We're excited to show you just how awesome the new Ride Custom 2 Cushion is... and discuss your seating challenges. Look for us in booth 77! If you're still considering the trip, details are [here](#).

Don't miss this:

From Pressure to Deformation... the Buttocks Response to Sitting (A4)

Presented by Sharon Sonenblum and Nicola Petrone.

This workshop will help to clarify the language and concepts needed to talk about how the buttocks responds to sitting. New and exciting data will be presented that relates pressure and deformation in people in upright and slouched sitting, as well as on buttocks models.

New Ventilation Channel Option

for Ride Custom 2 Cushion base

Enhanced heat and moisture management is now available. The channel is specifically located for each shape at the position of best opportunity for air flow.

The contours and spacer fabric cover also promote airflow to help keep the sitter dry and comfortable in virtually any climate.

Custom Certification

Courses for clinicians and suppliers

Enjoy learning about wheelchair seating in our Denver-area training facilities and gain hands-on experience with RideWorks and the Ride Custom products. Perhaps combine some education with a vacation?

Course dates are May 3-4 (springtime in the Rockies), July 26-27 (wildflower season in the high country), and October 18-19 (fall colors). More information [here](#).

Fitting questions or concerns?

Let us help. We now offer free technical seating support via Skype, FaceTime or phone consultation. Get the details [here](#).

Winter Games

PyeongChang, March 9-18

Ride has helped many of the US Paralympic athletes with their seating so we'll be watching and cheering them on! The Games will feature 670 athletes, a 24% increase on the 539 athletes that competed in Sochi – and a 44% increase in the number of female athletes. There will be 80 medal events in six sports: alpine skiing, biathlon, cross-country skiing, ice hockey, snowboard and wheelchair curling. More information and how you can watch is [here](#).
