

Here's to a bright new year ahead!

Innovation in the wheelchair world

Ben Huntzinger, inventor and athlete, was paralyzed in an automobile accident in 2009. Not satisfied with the mobility options that existed, he has designed a chair that works on all types of terrains.

Join Unite4CRT's upcoming Town Hall Meeting to hear Ben share his story of innovation. Free and open to all, it's coming right up on Tuesday, January 26, 7pm ET. Register in advance [here](#).

"I hope that in this year to come, you make mistakes. Because if you are making mistakes, then you are making new things, trying new things, learning, living, pushing yourself, changing yourself, changing your world."

-- [Neil Gaiman](#)

Fun finds / resources

- Wheelchair users are beginning to get COVID-19 vaccinations. Learn how the vaccine is being received and why you might need to be proactive about finding one... recent New Mobility magazine article, [here](#).

- Mental health suggestions: Fantasize... "Imagining a better future, whether it includes gigantic house parties or just more hugs, helps humans cope with difficult times." Read more [here](#).

- An [article](#) from PBS NewsHour about Mementos... aka the things that helped us survive and best expressed the experiences of 2020.

Thanks for reading,
Your friends at Ride Designs

P.S. If you somehow missed the last newsletter, the most viewed item was an article about how the Ride Custom AccuSoft Cushion has now become a staple in Ride's range of wheelchair seating solutions. It's a softer, more forgiving custom cushion option -- learn all about it [here](#).
