

New online seating course

"How does it shape up? The impact of the skeleton and the cushion on buttocks shape during sitting," taught by Sharon Sonenblum, PhD, is now available online. This .1 CEU course, and others on Ride University's [online education platform](#), are free until August 31, 2020.

Tour of smiles...

People who visit Ride Designs are always amazed by the amount of space, extent of equipment, and the number of dedicated team members that it takes to do what we do. This quick video was made in early 2020 to highlight the peoples behind the scenes.

Looking at it now, we're struck by all the smiles that we miss seeing on a daily basis due to current Covid-19 mask protocols. Enjoy the tour -- and keep smiling, even if it's hidden by a mask these days! (We'll look for the tell-tale sparkle in your eyes and those little wrinkle lines around the edges...) Learn more about the Ride Experience [here](#).

A little bit softer now...

Consider the Ride Custom Back option

- For a more forgiving user interface, an optional soft, open-cell polyurethane foam insert is available as an alternative to the firm, breathable composite foam liner.
- Supplementary reliefs help improve protection and comfort at sensitive areas.
- Available with choice of breathable spacer fabric cover or wipeable incontinence-proof cover.

Custom Certification Course status

Following both CDC and Colorado Health Department recommendations, attendance at upcoming courses is quite limited to allow for social distancing. The first course since early 2020 is scheduled for this week and all possible safety precautions are being taken.

We currently plan to offer the remaining 2020 courses scheduled for October 22-23 (full), and October 29-30. More information and registration are [here](#).

The Americans with Disabilities Act at 30

Building accessibility into our lives

"Thirty years on, the Americans With Disabilities Act has reshaped the way designers and the public have come to think about equity, civil rights and American architecture. But it's only a start." -- from an article on the failings and successes of the law as it applies to the built environment. Read an analysis by Michael Kimmelman, the New York Times architecture critic, [here](#) (also available as an audio file).

We're
HERE
for YOU!

A bright yellow sun icon with multiple rays, positioned behind the word 'HERE' in the 'We're HERE for YOU!' graphic.

Ride offers:

- live technical support
- funding documentation assistance
- local support
- online education
- online product owner's manuals & FAQs
