Ride Custom Certification Course

For clinicians and suppliers

**Due to popular demand...
We've added extra courses in
August and October!**

Learn about wheelchair seating in our Denver-area training facilities and gain hands-on experience with RideWorks and the Ride Custom products.

Course dates are July 26-27 (full), August 2-3 (new), October 18-19, and October 25-26 (new).

Why you really should come to Colorado for the course...

Read what others have said about attending, plus more on why the course is so special and highly regarded [here](#).

"Most practical, clearly explained and in-depth seating workshop I have participated in, in my nine years in the industry."

International Seating Symposium new product highlights

New Mobility magazine has featured some of Ride's new cushion ventilation options in their recent recap of ISS, along with other notable new products... worth a [read!](#) For more details on ventilation strategies, check out this in-depth [article](#) on our blog.

NRRTS educational/CEU opportunities

Did you know that NRRTS offers a series of [live webinars](#)?

Check out Sharon Sonnenblum's course, "[What Happens When You Sit? Explaining Seated Buttocks Deformation](#)." The webinar will review the impact of tissue deformation / breakdown, including how cellular deformation itself can lead to damage, as well as the indirect pathways of damage resulting from deformation. Sharon's webinar includes research that is summarized on our website [here](#).

A physician becomes the patient...

After his bike accident resulted in paralysis, Dr. Daniel Grossman was able to return to work in the ER after just six months -- with a renewed perspective on how he interacts with his patients at the Mayo Clinic. Watch last week's story from NBC Nightly News [here](#).

Check out all the coverage about his journey [here](#).

We were, of course, pleased to notice that he is using the [Java Cushion](#) and [Back](#).
