

ISS Custom AccuSoft debut

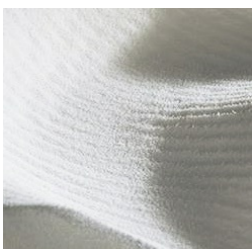

Thanks to everyone who came to see the new Ride Custom AccuSoft Cushion at the International Seating Symposium last week. If you weren't able to be there, all the details on this new, softer, custom cushion option are on the website [here](#).

The Custom AccuSoft Cushion is now shipping!

Turnaround time: 98% of custom orders ship within 12 business days of receipt of complete order/scan information.

Photos of the booth action have been posted to [Facebook](#), with a few more to come. We appreciate your hash-tagging enthusiasm!

Custom materials

New materials are being used to achieve a softer feel in the Ride Custom AccuSoft Cushion.

Learn more about the science of foams, including a link to a video short on the subject, on the [blog](#).

Come to Colorado...

Enroll in a Custom Certification Course for clinicians and suppliers

Enhance your skills in advanced seating strategies and gain hands-on experience with RideWorks and the Ride Custom products, including the

new Custom AccuSoft Cushion. Learn why you should make the trip to Colorado for the course [here!](#)

Course schedule for 2019: April 11 - 12 (full); April 18 - 19 (full); May 16 - 17; June 20 - 21; July 25 - 26; August 1 - 2; October 17 - 18; and October 24 - 25. More details on the [website](#).

Of note...

- The RESNA Standards Committee on Wheelchair and Related Seating is actively recruiting additional members. More information is [here](#). Ride Designs is an active member of the committee.

- Seeing through a robot's eyes helps those with motor impairments....

[Robotic body surrogates](#) can help people with profound motor deficits interact with the world. It's working in the testing stage and Georgia Tech researchers stated, "When we gave Henry free access to the robot for a week, he found new opportunities for using it that we had not anticipated."
