
New Custom AccuSoft Evaluation Option

An even simpler way to order the AccuSoft Cushion -- by using the Java Cushion as an evaluation tool.

When appropriate, this easy and time-saving method can replace the bead bag and vacuum pump method. Check out this quick [video tutorial](#). Detailed information, including most-asked questions and answers, is available [here](#).

If you're scanning, remember...

When ordering a Ride Custom Cushion from a scan, it's essential to scan the shape capture base well, including the colored foam layers, sides and corners. Please be sure to send photos, and indicate the desired cushion height on the order form. Review the helpful video, "Achieving Optimal Ride Custom Cushion Height," [here](#).

**We're
HERE
for YOU!**

Ride offers:

- live technical support
- funding documentation assistance
- local support
- online education
- online product owner's manuals & FAQs

Why coronavirus may make the world more

accessible

An article from BBC Future raises some interesting points. "It's funny how so many of the things that disabled people have been saying to architects, town planners and councils for years have suddenly become the very problems that are forcing us to have to continue lockdown for longer... because of the way we have designed society." Worth a read, [here](#).

Free home-based learning

Courses on Ride's new [online education platform](#) will be free until August 31, 2020.*

Learn about wheelchair seating and Ride products at your own convenience, online -- and get CEU credit for some of the offerings. The first full-length class, "Custom Seating Strategy: Early versus Late Intervention," is now available, along with some short instructional videos.

More courses to follow. Check it out [here](#).

Custom Certification Course status

While courses have been cancelled through the end of June, we are carefully evaluating how to move forward and offer future courses in the most responsible manner possible, following both CDC and Colorado Health

Department recommendations. Attendance will be quite limited for to allow for social distancing. Remaining 2020 course dates are July 30-31, October 22-23, October 29-30. More information and registration are [here](#).

Price change alert

Effective June 1, all Ride Custom products, custom tool kits, and scanners will incur a slight price increase. Updated order forms will be available June 1. Pricing on quotes provided prior to June 1, 2020 will be honored. Please contact Shelly Young, product manager at 866.781.1633 x 312 with any questions.
