

Currently 98% of custom orders ship within 12 business days of receipt of order form, scan, and purchase order. Plan ahead for the inevitable year-end crunch and get your clients' orders together as soon as possible. We're here, ready and waiting to hear from you :)

Happy Halloween!

Check out this [great article](#) about ways to help make Halloween more inclusive in your neighborhood.

2020 Ride Custom Certification Courses

Learn all about the course, why you should come to Colorado to take it, and when, [here!](#)

New soft foam insert option for

the Ride Custom Back

Soft: For a more forgiving user interface, an optional soft, open-cell polyurethane foam insert is now available as an alternative to the firm, breathable composite foam liner.

Protection and comfort: Supplementary reliefs help improve protection and comfort at sensitive areas.

Cover options: Available with choice of breathable spacer fabric cover or wipeable incontinence-proof cover.

In case you missed it...

The most-clicked-on story in the last TWO newsletters was about a new video short that reviews shape capture techniques that help to ensure Ride Custom Cushions are not taller or thicker than intended. Watch it [here](#).
