

## Time to finalize year-end orders...

As usual, 98% of Ride Custom seating products are currently shipping within 12 business days of receipt of complete order. Standard products usually ship within two business days.

Shipping times now, and especially as the holidays approach, are expected to slow... so anything you can do to get orders finalized and moving now would be advisable.

FedEx is only able to track lost packages for two weeks after shipment. Let us know as soon as possible if a package has not arrived within 10 days of the date of your shipping confirmation email.

## Need CEUs?

Courses have been added to Ride University this year... have you checked out what's new? And did we mention they are free? :)

## Plan ahead for 2022... get certified

“Most practical, clearly explained and in-depth seating workshop I have participated in, in my nine years in the industry. Love the culture of the company.”

Registration is now open for all 2022 Custom Certification Courses. The two-day course will provide you with the best information available on custom seating — course content ranges from dynamic lecture sessions to hands on workshop sessions.

Dates are:

January 20-21

March 17-18

April 21-22

June 23-24

July 21-22

October 20-21

October 27-28

## Codi's Life

During recent Complex Rehab Technology (CRT) advocacy sessions, we had the opportunity to learn about Codi... and thought you might enjoy watching this [talk](#) by Codi and her mother, Jennifer, presented at TEDxGrandJunction (Colorado) in 2020.

Thank you for reading!
