► Shape capture method

Using RideWorks® app?

Before scanning, on the clear, outer shape capture bag (using a black permanent marker), draw trim lines and marks to draw the back as it should be manufactured, including:

- Arrow pointing upward, indicating top of back

- Depth and height of the lateral trunk supports**

Using plaster instead of RideWorks app?

Before shipping cast, allow to DRY for 48 hours, and complete the following:

- Face sheet
- Order form (enclose one copy of each in box with cast)

Mark cast with following information:

- Trim lines
- Arrow pointing upward indicating top of back
- Vertical line at approximate midline of wheelchair. Note: This may differ from client midline in the presence of severe postural asymmetry.
- Client first name and last initial
(name should exactly match name on order form face sheet)
- Date
- Supplier/Vendor
- Supplier/Vendor representative name
- Therapist name

NOTE: Do not ship cast in a plastic bag.
