

Ride Designs®

What's new: Numotion NLC Edition

Bundled Pricing

- Simplified and speedier order building: as few as two line items need for most Ride Custom Systems
- Easier and faster quoting: less time spent generating duplicate order forms for quotes and production
- Fewer itemized justifications are needed on the letter of medical necessity
- For more information [Click here](#)

Custom Accusoft Cushion

- The same accurate fit as the Ride Custom 2 Cushion with a softer, more forgiving sitting surface
- Find out more information [here](#)
- New lateral reinforcement option: boosts structural integrity while using forgiving materials that help reduce the risk of injury to skin and soft tissue – learn more [here](#)
- Option to order without capturing and scanning a shape using [Java Cushion as evaluator tool](#)
- Two contour options: Full contact or Ride Contour – [see the difference here](#)

Ride Custom Back

- Two new liner options
 - Ultra Breathable 3D Mesh – click [here](#) for more information
 - AccuSoft Foam Liner for a more forgiving user interface

Exciting new research from Italy and Germany

- In a Italian prospective observational study of 15 subjects with SCI using the Java cushion, all existing pressure injuries closed and no new injuries occurred
 - [Read the abstract](#) in the Italian Journal of Prevention, Diagnostic and Therapeutic Medicine.
- The Forward and Java Cushions were the subject of recent German clinical trials.
- View the research summaries here for the [Forward Cushion](#), the [Java Cushion](#), or download the [complete clinical test results](#).

Ride University

- Free Online Courses: An online learning platform for education about wheelchair seating and Ride products at your own convenience – some with CEU credit. [View courses here](#).
- Ride Custom Certification Course and Advanced Skills Course: Where seating professionals become certified to provide Ride Custom Seating. Click [here](#) for more information and for upcoming course dates.
