

Corbac Back Support to be discontinued

Due to increased manufacturing costs and decreased reimbursement, Ride will discontinue manufacturing and sale of the Corbac Back Support, effective January 1, 2019. We are sorry to see it go... the Corbac, beloved by many, offers moderate support with precision-adjustable tension in a lightweight, minimal design.

Orders placed by the end of business on December 31, 2018 will be fulfilled. Limited Warranty for this product will remain effective for 24 months from the date of delivery to the original purchaser. Please contact Ride Designs Customer Service with any questions.

Ride Custom Certification Course

For clinicians and suppliers

Both remaining 2018 course dates (October 18-19 and October 25-26) are now full and registration is closed.

Watch for the 2019 date announcement in upcoming newsletters and on the website. Attendees grow their skills in advanced seating strategies and gain hands-on experience with RideWorks and the Ride Custom products.

Documentation review assistance

If you need assistance with a documentation review for any Ride cushion or back order, we can help, and at no cost to you. Simply contact our Reimbursement Department at 866.781.1633, x312.

Disability lessons from archaeology

The mummy of a child with paraplegia is helping scientists discover how Peru's ancient Nasca culture treated disability... "He lived with a disability that would have required additional care and resources, and he was well cared for and valued by the people around him, even during a period of their history when food was scarce and life was uncertain." Read more about the discovery [here](#).
